## TYPE

- NMD/ROMAX
- AC90/BX/150
- RW90
- T90
- TECK CABLE (CU)
- ACWU (AL)
- LVT
- FLOOR HEATING CABLES
- CAT 6

## SIZES

- 14/2
- 12/2
- 10/3
- 8/3
- 6/3
- 2/0
- 4/0

## CERTIFICATION

- Amp Range: 15A to 50A
- Poles: Single, Double, •Triple
- Type: Push-in, Bolt-on

- Eaton offers robust breakers designed for residential and commercial settings, featuring quick-install push-in and bolt-on options

- Amp Range: 15A to 200A
- Poles: Single, Double, •Triple
- Type: Bolt-on, Push-in, Plug-in

- Schneider Electric's Square D breakers, including the QO and Homeline series, versatile protection options, supporting various pole configurations and installation types for residential and commercial applications

- Amp Range: 15A to 125A
- Poles: Single, Double, •Triple
- Type: Push-in, Bolt-on

- Siemens breakers offer reliable protection with flexible pole configurations and amp ratings for residential and industrial use

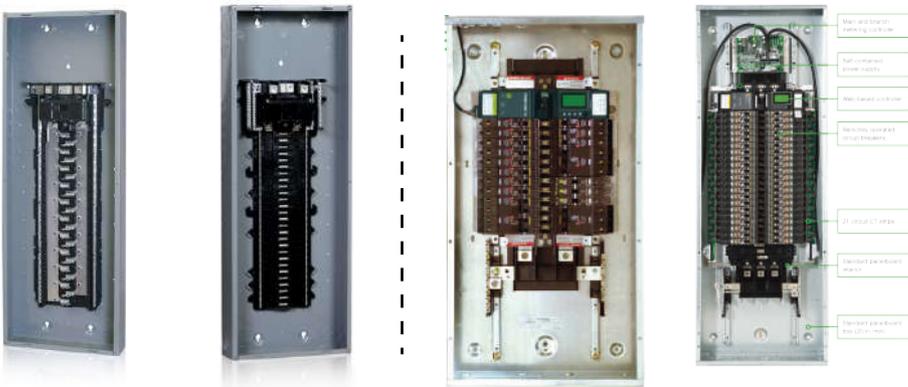

- Amp Range: 15A to 1200A
- Poles: Single, Double, •Triple
- Type: Push-in, Bolt-on

- General Electric Circuit Breakers: GE breakers come in single and double-pole configurations, with amp ratings from 15A to 1200A. They utilize plug-in and bolt-on types, suitable for residential and industrial settings.

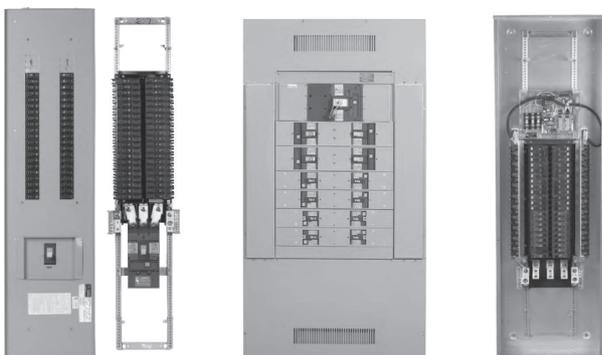

- 1-phase and 3-phase
- 12 to 84 circuits
- 100A to 600A
- Bolt-on and plug-in
- Residential, commercial, and industrial

- 1-phase and 3-phase
- 12 to 84 circuits
- 100A to 600A
- Bolt-on and plug-in
- Residential, commercial, and industrial

- 1-phase and 3-phase
- 12 to 84 circuits
- 100A to 600A
- Bolt-on and plug-in
- Residential, commercial, and industrial

- 1-phase and 3-phase
- 12 to 84 circuits
- 100A to 600A
- Bolt-on and plug-in
